

Silver Cross Emergency Medical Services System

1900 Silver Cross Blvd New Lenox, IL 60451 815-300-7130 Fax 815-300-7917 www.silvercrosssems.com

Hello ECRN Candidate:

You are being scheduled for the ECRN class on _____. The class is all day/both days.

Just a few things:

- There is a licensing fee for ECRN. **ON THE FIRST DAY OF CLASS YOU MUST BRING THE LICENSE FEE** OF \$55.00 made payable to IDPH in the form of a money order or cashier's check.
- Please check with your Department Manager about possible reimbursement for the state licensing fee and possibly being paid for attending the class (save your receipt and ask for verification of attendance).
- Included in this packet are ECRN Telemetry Log copies to take to class with you for practice.
- You will need to do 10 ALS radio calls with a preceptor. The log sheets are included here.
- You will also need to do 8 hours of ride time on an ambulance. Please contact Bill Kallal to schedule your ride time at wkallal@silvercross.org. You can let Bill know if one Fire Department works best for you, however, you might be assigned to a different department depending on the number of Paramedic students the Fire Department has scheduled during that time.
- Included is the Region 7 SMO book for you to study and prepare for the class. An electronic copy of the SMOs may be viewed at <http://www.silvercrosssems.com/region-7-smos/>
- As an ECRN, you will need to complete **3 Silver Cross EMSS presentations per year** in the online Moodle system to show you are keeping current and understand the content of the Region 7 SMO's. Instructions to register, once you receive your ECRN license, are attached.

Completed ride time form and ALS radio call log must be submitted to Marilyn Zanelli, EMS Operations Coordinator at mzanelli@silvercross.org **within 90 days** from the date of your class in order to be considered for State licensure. Marilyn will process your license with IDPH as long as all requirements are met on time.

Please let me know if you have any questions.

Thanks so much,

Lonnie Polhemus
EMS System Manager and ECRN Course Coordinator
